

EUROPEAN BURN ASSOCIATION

EBA

PAM Committee
MAGNETTE André , Chairperson.

News from the PAM committee.

André Magnette, nurse, chairperson.

During 2008, the PAM committee met in april and in december; the next meeting is planned for Lausanne may 2009.

The committee internal rules were updated and some recommendations particular to PAM are prepared for publication during Lausanne's Congress.

13th EBA Congress Lausanne

You are kindly invited to our 13th Congress next september. The varied program for the PAM sessions could meet the needs of each professional.

Among the presented posters and oral presentations, we'll **award prizes** as usually for best papers (oral & poster). **Additional exceptional prizes** will be offered for innovative ideas, for patient centered clinical implementation, for young investigator and a special career award. This will be a real occasion to emphasize and give more visibility for the PAM activities to burn patients.

Call for candidates.

Inside the committee, we have minimum two vacancies for which it is now time for applications. The election will take place

during the PAM business meeting on Friday 4th, 9.00.

- If you are passionately fond of burn care, have time for 2 meetings a year and some work at home...
 - If you know english and are interested in matching different experiences, exchanging informations from other countries...
 - If you want to make new contacts in European Burn World...
- ⇒ THEN apply for membership of the EBA PAM committee.

During our business meeting, you'll shortly present yourself, your career and points of interest and, after vote, become maybe one of our members.

We are really looking for a broad representation of countries and professions, especially physiotherapists, ergotherapists but other professions as well.

For more informations and candidature, do not hesitate to contact André MAGNETTE, chairperson, Burn Unit, University Hospital, B-4000 LIEGE (Belgium) +32 4 366 72 94 - a.magnette@chu.ulg.ac.be

The application form and procedure are available on the EBA website www.euroburn.org. Visit the PAM pages.
